The Myth Manifestation (SPI Files Series #5) by Lisa Shearin The agents of Supernatural Protection & Investigations (SPI) protect people from predatory supernaturals. This time, we're the ones who need protection. New York is one of the most popular convention destinations in the world--for humans and supernaturals. Every hundred years, rulers of the world's supernatural races come together to negotiate and renew a peace treaty. Meeting in the same hotel are the governors of our world's goblin and elf colonies. SPI is saddled with the security nightmare of keeping the living delegates alive and the undead delegates from becoming permanently deceased. We've got our work cut out for us. I'm Makenna Fraser, seer for SPI. Our security nightmare becomes real when monsters from the delegates' mythologies begin mysteriously appearing in the flesh to hunt delegates from every side of the debate. And when the hotel gets sucked into another dimension, there's no escape. We discover that we're all pieces in an elaborate and deadly game. A game about to spill out into the real world. Failing to escape is game over and not an option. We have to save the world--but first, we have to save ourselves.
