Zodiac: A Novel by Sam Wilson In a volatile society ruled and divided by its citizens' zodiac signs, a serial killer is on the loose: is it a misguided revolution or something more sinister? A starting new thriller with one of the most original concepts in years, where the line between a life of luxury and an existence of poverty can be determined by the stroke of midnight. In San Celeste, a series of uniquely brutal murders targets victims from totally different walks of life. In a society divided according to Zodiac signs, those differences are cast at birth and binding for life. All eyes are on detective Jerome Burton and astrological profiler Lindi Childs—divided in their beliefs over whether the answer is written in the stars, but united in their conviction that there is an ingenious serial killer executing a grand plan. Together, they will unravel a dark tale of betrayal, lost love, broken promises and a devastating truth with the power to tear their world apart . .
